

## Web Developer (.Net/C#): £30k - £40k

We are looking for a self-motivated Web Developer to join the Virtualnet Software family at our offices based in West Oxfordshire.

We are ideally looking for somebody who has at least 1 years' working experience, but welcome applications from somebody with less experience if they are willing to hit the ground running and keen to learn.

As a Web Developer you will be involved in the development, coding, customisation, configuration, testing, and deployment of in-house and external clients' applications. These vary from static HTML websites, right through to bespoke business web applications.

### What does the role entail?

As a Web Developer you will:

- Be responsible for enhancing existing features, as well as developing new functionality and performing upgrades, as necessary
- Work across the full lifecycle of development, from initial user requirements through to database design and creation, application development, testing and deployment
- Be working across a range of technologies, systems and programming languages, primarily: .Net (C# & MVC), HTML5, CSS, JavaScript but also including Umbraco CMS, ASP.NET Web Forms

### What will you bring to the role?

As a Web Developer you will have:

- Experience of developing SOLID systems utilising .NET (C#) and SQL Server (Microsoft SQL Server)
- We'd love you to be able to show/explain some examples of running software that you have been responsible for delivering
- Experience of testing your work to ensure you iron out as many bugs as possible before deployment to a live environment
- An ability to explain technical problems in non-technical language
- Strong initiative, with excellent organisational, planning and self-management skills, including the ability to work accurately and carefully, manage and complete projects to deadlines and deliver high quality work
- Effective communication and interpersonal skills, including written and presentational, with the ability to work and engage with a diverse range of users and colleagues at all levels.

## Essential Skills

- ✓ Web development
- ✓ C# (.Net Framework & .Net Core)
- ✓ MVC, ASP.Net, Web Forms
- ✓ HTML5
- ✓ CSS
- ✓ JavaScript
- ✓ SQL (MSSQL, MySQL)
- ✓ Use of source control i.e. Git
- ✓ Windows server / IIS

## Desirable Skills

- ✓ Agile software development
- ✓ Command Query Responsibility Segregation (CQRS)
- ✓ Dapper and Entity Framework ORMs
- ✓ Web API / REST API
- ✓ Umbraco CMS
- ✓ Front-end framework, React or AngularJS (for future possible development)
- ✓ Unit testing

## Work Environment

This role is based in our West Oxfordshire offices however we will consider hybrid working for the right applicant.

## Other Benefits

- BUPA
- Pension
- 25 Days Holiday (plus Bank Holidays)
- Bonus Scheme
